Sr.No	Field	Status of Compliance	Compliance	Attachment	Mandatory / Desired	Score	Marks Assign by officer
1	2	3	4	5	6	7	
1	Whether PM2.5& PM10.0 sensors installed at project site?	Yes	Sensor has been installed	View File	Mandatory	15	-
2	Whether continuous dust/wind breaking walls, tarpaulin or green-net, wind-fencing or scaffolding sheet of appropriate height have been provided around the periphery of the construction site and also tarpaulin or green-net on scaffolding around the area under-construction and the building?	Yes	GI sheets has been fixed around the boundary of the site and also with green net	View File	Mandatory	15	-
3	Whether building material is covered during transportation?	Yes	Building material is brought in covered vehicles	View File	Mandatory	15	-
4	Whether Anti-Smog Gun(s) has been installed at the construction site?	Yes	Water sprinkling is being done by the Anti Smog Guns	View File	Mandatory	15	-
5	Whether wind fences/screens and/or enclosures/coverings for storage piles being utilized? No loose soil or sand or construction & Demolition Waste or any other construction material that causes dust shall be left uncovered.	Yes	Raw material & construction waste is kept covered. To suppress the dust water sprinkling is done from time to time	View File	Mandatory	15	-
6	Whether no grinding and cutting of building materials in open area and wet-jet is being used ?	Yes	Wet grinding is done in closed areas	View File	Mandatory	15	-
7	Whether unpaved surfaces and areas with loose soil are adequately sprinkled with water to suppress dust? Ideally site to be fitted with fine water spraying nozzle system?	Yes	Unpaved surfaces are always kept wet with water sprinkling	View File	Mandatory	15	-
8	Whether all vehicles including carrying construction material and construction debris of any kind cleaned and wheels / under body washed before leaving the construction site?	Yes	Every vehicle coming / going from the site has to pass through the wheel washer	View File	Mandatory	15	-
9	Whether DG set installed (with acoustic enclosure & stack height)?	Yes	The DG Sets are attached with acoustic enclosure with adequate stack height	View File	Mandatory	15	-
10	Whether video-fencing with remote connectivity installed at project site?	Yes	Cameras has been installed and links shared	View File	Mandatory	15	-

Sr.No	Field	Status of Compliance	Compliance	Attachment	Mandatory / Desired	Score	Marks Assign by officer
1	2	3	4	5	6	7	
11	Whether proper collection, segregation, disposal& recycling of C&D Waste is ensured and due log book of the same is maintained?	Yes	Construction waste is segregated and is stored for reusing the same for filling the gaps	View File	Mandatory	10	-
12	Whether mixing processes is carried out in enclosures?	Yes	Mixing is done in separate area and all raw material	View File	Mandatory	10	-
13	Whether steps have been taken to ensure that debris/ construction material is not dumped in public roads/ undesignated sites?	Yes	Raw material and construction waste is stored within the site	View File	Mandatory	10	-
14	Whether dust mitigation measures be displayed prominently at the construction site for easy public viewing?	Yes	Dust mitigation boards have been made hanged at the different places at site	View File	Mandatory	10	-
15	Whether roads leading to or at construction sites are paved and blacktopped i.e., metallic roads?	Yes	Roads leading to the construction site are paved	View File	Mandatory	10	-
16	Whether options employed for C&D waste recycling?	Yes	Construction waste is stored within the site at separate place to be used for filling the gaps	View File	Desired	5	-
17	Whether every worker working on the construction site and involved in loading, unloading and carriage of construction material and construction debris are provided with dust-mask to prevent inhalation of dust particles?	Yes	Every worker is provided with mask and other safety gears	View File	Desired	5	-
18	Whether arrangement provided for medical help, investigation and treatment to workers involved in the construction of building and carry of construction material and debris relatable to dust emission?	Yes	Medical arrangements have been made at site i.e., first aid and regular visit of the doctor	View File	Desired	5	-
19	Whether material drop height is minimized at the transfer point and enclosure around transfer point provided?	Yes	Shutes have been provided for dropping the construction waste	View File	Desired	5	-
20	Whether designing layout of the construction site to minimize fugitive dust generation potential, including access roads, entrances and exits, storage piles, vehicle staging areas, and other potential sources of dust emissions.	Yes	Every step is taken to avoid the dust emission.	View File	Desired	5	-
21	Whether pre-fabricated materials and modular construction units are being used?	No	No pre-fabricated material is used		Desired	0	-

Sr.No	Field	Status of Compliance	Compliance	Attachment	Mandatory / Desired	Score	Marks Assign by officer
1	2	3	4	5	6	7	
22	Whether proper shape storage piles provided so that they do not have steep sides or faces?	Yes	Every care is taken to store the material	View File	Desired	5	-
23	Whether stabilized earthworks with stone / soil / geotextiles / Vegetation / compacting?	Yes	The earthwork is stabilized with compacting		Desired	5	-
24	Whether treated water is used to mitigate dust & wet process for Sand and grit blasting and facade cleaning generation on construction site?	Yes	STP Treated water from DJB STP plant is purchased	View File	Desired	5	-
25	Whether dust suppressants are being used?	Yes	To suppress the dust - water sprinkling is done	View File	Desired	5	-
26	Whether distances travelled for delivery of materials minimized?	Yes	The raw materials are purchased in bulk		Desired	5	-
27	Whether vehicles used for transport of materials have valid PUC certificate?	Yes	Vehicles with valid PUC are used	View File	Desired	5	-
